

VOLVO ESCL emulator CAN SPA platform

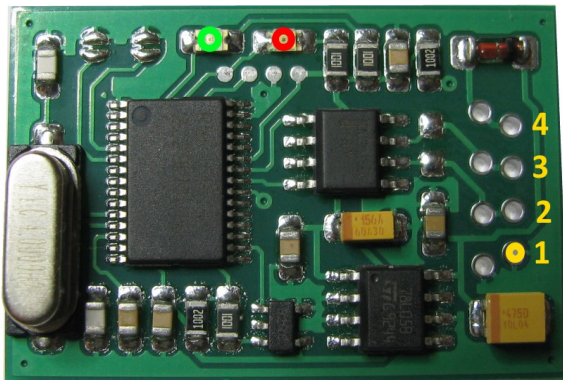

XC90 II / S90 / V90 / XC60 II / V60 II / S60 III etc
2015 up

Purpose:

For Volvo cars, SPA platform, 2015 up. Programming is NOT necessary, emulator is Plug & Play.

Installation:

Use original 4-pin connector from used SCL or 2.54mm pin header, solder it on to emulator board. Pin 1 is marked on opposite side of board (use holes for 2.54 or 3 mm pitch accordingly).

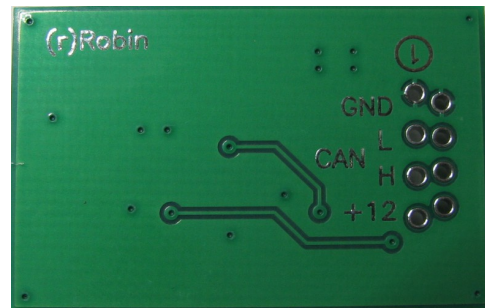

Pinout:

Pin 1 Ground
Pin 2 CAN low
Pin 3 CAN high
Pin 4 ESCL supply +

Wire colors:

BLK / YEL
BRN / GRN
BRN / WHT
RED / YEL

LEDs on emulator board:

- **GRN** – ESCL unlocked state;
- **RED** – ESCL locked state;
- **GRN** and **RED** both ON: moving from one state to another (locking or unlocking);
- both OFF: no activity on CAN (sleep).
